Dear Parents, Carer and members of the local Community

Jigsaws Childcare Ltd is a not-for-profit organisation which established itself in the community of Church Fenton & Ulleskelf, in 2007. Over the years we are proud to have offered care, support, and teaching to over 800 of our young children, some of whom now have come back to work with us and provide the same nurturing environment.

Although our teaching is enthusiastic, and our staff create a fantastic learning environment inside and out with the use of progressive pedagogy and our Forest Schools ethos. Our actual buildings are starting to look and feel a little dated and not very well insulated.

We are looking to apply for funding for a replacement building on Jigsaws same site. Our aim is to offer long-term sustainability for our early years provision in the community and offer more usable spaces to support the growth in the local community.

We don't have any firm building plans yet, as we are in the process of applying for funding to support surveys and planning applications. Once funding is approved, we would go through planning and a full public consultation.

In the meantime, we would love to gauge your opinions - from our families and resident's past, present and future to understand what you feel is needed in your communities. To understand how you want to improve the places and spaces that matter in our community. How do you feel Jigsaws can help more people to reach their potential? What is the best way to support the youngest in our community.

We would appreciate it if you could follow the link below and complete our survey which will help give us feedback, make appropriate choices, and support our application for the first step in our funding request.
